Social Skills for Success

Workshop led by Chris Doucette CYCP, OACYC

The Social Skills for Success Parent Workshop provides parents with tangible tools to help promote positive development in the social aspects of their child's life. Among basic social skills, Conflict Resolution and Unconditional Positive Regard are covered as they are increasingly relevant to parents of children with a social skills deficit. This interactive workshop promotes a collaborative and inclusive approach for parents as well as a welcoming environment to ask questions and seek guidance.
