

Helpful Apps

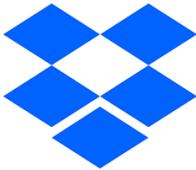

MyHomework

This free app enables you to monitor your class schedules and manages your assignments for all your lessons. You may also input if you have a test coming or if homework is due (icslearn).

Evernote

This is user-friendly, allowing students to take notes, take photos and record videos to help them remember all sorts of things. Evernote lets you tag your notes, making them easy to search and readily available for recall (icslearn).

Dropbox

This is best used for storing assignments, essay drafts, photos, videos, etc. in a secure and protected location. In line with that, Dropbox uses an online storage system, and that means all your files are safe from any untimely computer breakdowns (icslearn).

Wolfram Alpha

Wolfram Alpha allows you to input any maths question and it'll find the correct answer along with the formula for how it solves it. This is great as it allows you not only to check that your answer is correct but that your working is too. Wolfram Alpha allows users to find the answers to problems for various other subjects including physics and music (icslearn).

Scanner Pro

This studying app allows you to scan documents quickly and then add them to cloud storage providers such as Google Drive and Dropbox, or to your camera roll. It is also able to find existing documents that you have previously photographed and convert them into PDFs (icslearn).

RefMe

RefME is a referencing app, enabling students to create bibliographies, citations, and references instantly by copying and pasting URLs. It supports popular programs like Evernote so that you can export and import your work with your other devices (icslearn).

Brainscape

Flashcards are a staple of studying. This app takes the pain out of making them by serving them up on a touchscreen (Times).

Unstuck

According to the website, Unstuck is "an in-the-moment digital coach that's ready every time we're feeling stuck." It asks you a series of questions which helps you become motivated...and, at least for high school students, prevent procrastination (magoosh).

Google Expeditions

Expeditions offers a series of virtual reality (VR) field trips that teachers can use to supplement learning. Each expedition is made up of various scenes that include 360-degree panoramas and 3D images (commonsense).

Stop, Breathe & Think: Meditate

The app helps kids and teens feel confident and able to tackle anything that comes their way. The experience starts and ends with how you feel as personalised short activities are introduced that are easy to build into your day (Tutorful).

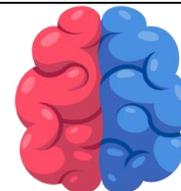

Curiosity

The Curiosity app is the best way to get smarter about your world: Enjoy short-form, easy-to-read articles that will inspire you. Watch smart videos from the best hand-picked, educational content creators (Tutorful).

Duolingo

Learn up to 23 new languages with fun quizzes and easy lessons. Each lesson includes a variety of speaking, listening, translation, and multiple choice challenges (Duolingo).

Left Vs. Right Brain Training

Exercise your grey matter every day with Left vs Right! The games are designed to test your awareness, adaptability, reflex, reasoning, precision, and patience (Tutorful).

My Passwords

This password manager application will help you to store all your passwords easily and safely using Advanced Encryption Standard (AES-256). The only thing you have to do is to remember a master password which is used as encryption key (My Passwords).

Mindly

Mindly helps to organize your inner universe. Give a structure to your thoughts, capture ideas, plan a speech, and take notes. It is up to you (Mindly).

Habit Tracker

Measure and track anything and everything. Follow your own schedule and track your own goals. Get notified whenever you need to do something important (Habit Tracker).

Daylio

Pick your mood and add activities you have been doing during the day. You can also add notes and keep an old school diary. Daylio is collecting recorded moods and activities in the statistics and calendar. This format will help you to understand your habits better. Keep track of your activities and create patterns to become more productive (Daylio)!

TED

Explore more than 2,000 TED Talks from remarkable people, by topic and mood, from tech and science to the surprises of your own psychology (TED).

Life Hacks

Open up to a world of infinite hacks to reduce frustration in everyday life tasks, realizing that these simple tips can bring up a smile, and make dull jobs interesting (Life Hacks).

Big Talk

"BIG TALK is about skipping the small talk to make meaningful connections" Inspired by the TED talk "How To Skip the Small Talk and Connect With Anyone" by Kalina Silverman (Big Talk).
