Each and every day, Canadians with learning disabilities (LD) face the challenge of learning and processing information with courage and determination. What they don't need is the added challenge of having to explain LD to classmates, colleagues and employers.

## **It's time to release the power...**

The Learning Disabilities Association of Canada (LDAC) and its member organizations across the country plan to set the record straight on LD and the people who live with them. It's time for all Canadians to not only understand LD but to celebrate the unique achievements and capabilities of people living with LD.

*Misperceptions about LD can foster barriers between people.*

*Together we can bring them down.*

## **Will you join us?**

Donations to the 2011 United Way Campaign are welcome.

**United Way  
Centraide**  
Sudbury and/or District

*Imagine a world without the stigma of learning disabilities...  
If we can imagine it, we can do it.*
