

## The Next in our Series of Parent Workshops

# One Size Does Not Fit All; ADHD at Home and in School Settings

## Workshop led by Dr. Robert Silvestri

ADHD is a neuro-bio-psycho-social disorder. Accordingly, this presentation will provide parents with knowledge of the biological, cognitive, and behavioural mechanisms underlying symptoms of ADHD. Simulations will provide presentation participants the chance to experience ADHD symptoms. The impact of ADHD across home and school settings will be discussed and academic strategies/ accommodations that most benefit students with ADHD will be conveyed as well.

Thursday, January 19 at 6:30 P.M.  
Lockerby Composite School  
Room 206  
1391 Ramsey View Court

Robert Silvestri is currently employed with the Northern Ontario Assessment and Resource Centre (NOARC) as the Lead Researcher. Robert has obtained his Master's in Education from the University of Toronto and his Ph.D. in Education with a specialization in cognitive studies at Queen's University.

Robert's research interests include studying the impaired cognitive mechanisms associated with learning disabilities (i.e. dyslexia) and Attention Deficit/Hyperactivity Disorder. Additionally, Robert is interested in research examining the impact of disabilities on academic success at a postsecondary level of education.
